IMPROVING ENERGY COMPETITIVENESS THROUGH INFORMATION AND COMMUNICATIONS TECHNOLOGY

PETACH TIKVAH, ISRAEL – October 25, 2011 – ECI Telecom, a global provider of next-generation network solutions, today announced that it has joined [enerTIC](#) as a founding member. enerTIC is an organization dedicated to transforming the energy efficiency of Information and Communications Technology (ICT) solutions in Spain for a more competitive and sustainable economy.

Highlights:

- enerTIC was formed to help Spain achieve compliance with the European Commission’s Energy 2020, a strategy for competitive, sustainable and secure energy
- At the heart of enerTIC is a business platform that’s designed to help ICT companies improve energy efficiency in four key areas: people, infrastructure, spaces and buildings, and key sectors
- As a founding member, ECI will join other leading ICT companies and local governments and take part in working groups, advisory panels and forums aimed at finding ways to improve the energy efficiency of ICT solutions
- ECI’s [1Net](#) framework supports [utilities](#) as they migrate towards smart grid and more cost-effective sources of energy

EXECUTIVE PERSPECTIVES

“ECI Telecom has a strong track record of corporate social responsibility, from the design of greener platforms to an intense commitment to reducing its carbon footprint. We are confident that ECI will become a valuable member of enerTIC, helping us to find sustainable solutions for a better energy future.”

Francisco Verderas, Managing Director, enerTIC

“All of us at ECI are deeply committed to protecting our planet’s limited resources. As such, we’re very proud to be a founding partner of enerTIC and look forward to playing a significant role in the development of sustainable Information and Communications Technology solutions which will transform energy competitiveness in Spain.”

Matthias Nass, VP of Field Marketing, EMEA, ECI Telecom
